

STARX FLOW

The Ultimate 24/7 AI Receptionist Setup Checklist

A step-by-step implementation guide to automate local front-desk scheduling.

Phase 1: Pre-requisites & Calendar Configuration

- ☐ **Dedicated Phone Line**
Secure a clean WhatsApp Business phone number. If converting an existing line, backup chat logs first.
- ☐ **Calendar Integration**
Connect Google Calendar, Outlook, Square POS, or Clover natively in the StarX Flow Dashboard.
- ☐ **Staff Roster & Services**
Define active staff members, custom shift hours, services offered, durations, and standard pricing.
- ☐ **Buffer Time Definition**
Configure automatic post-appointment buffer periods (e.g., 10 mins) to allow staff transitions without overlaps.

Phase 2: Building the AI Knowledge Base

- ☐ **Business Identity & Tone**
Define your salon, gym, or clinic name and set the voice tone (e.g., Warm, Professional, Energetic).
- ☐ **Core FAQ Logging**
Input answers for cancellation policies, parking arrangements, refund rules, and amenities.
- ☐ **Triage Rules**
Specify fallback keywords (e.g., "emergency", "complaint") that immediately hand over the chat to a live staff member.

Phase 3: Interactive Workflows & Intake WA

- ☐ **Intake Forms Setup**
Design the registration fields required for new clients (e.g., Full Name, Email, Medical History waiver).
- ☐ **Deposit & Payment Rules**
If required, link Stripe or Clover to collect credit card deposits or session pre-payments during the chat flow.
- ☐ **Booking Confirmation Template**
Customize the automated WhatsApp confirmation message, including date, time, address, and cancellation rules.

Phase 4: Launch, Testing & Post-Booking automations

Live Testing Run

Send dry-run messages to your WhatsApp assistant. Test scheduling a slot, rescheduling, and asking FAQs.

Staff Training

Show front-desk staff how to monitor active AI chats in the StarX Flow Inbox and take over manually with 1 click.

Review Booster Setup

Enable Google Review Booster to automatically request ratings 2 hours post-session from satisfied clients.
